

1 | Reading Reflections

1.1 | Argument

- Native American perspective beneficial
- Some other things come up when doing so
 - Trading was beneficial?
 - True impact of disease
 - Political shifts

1.2 | Main evidence?

- Trading
 - New materials brought to North America
 - Social and political impacts of trade
- Ecological
 - Environmental destruction that came from European settlement
- Disease
 - Crippling for Indian society from multiple standpoints

1.3 | Author's perspective/bias?

- "Native American perspective good"
- Could be cherry picking

1.4 | Questions?

- What is the significance of viewing the conquest of North America through this lens?

1.5 | Connections?

- Talking about disease is common across previous reading
