## 2 | **overview**

2.1 | **the genetically impure were sterilized**

## 3 | **science as salvation**

3.1 | **Nazi Germany promoted the existing eugencists and used them to legitimize their work**

3.2 | **proponents argued that costly welfare services were being wasted on the impure and that they were interfering with natural selection**

3.3 | **there was a fear of distinction—modern families were encouraged to have more children (avoid birth control, etc)**

3.4 | **nazis also incorporated the idea that the Nordic line was better (germans)**

3.5 | **catholics objected to interfering with reproduction and liberals 'decried the violation of individual rights'**

3.6 | **eugenics was around in states in canada, switzerland, and the united states, among other places**
