

## 1 | Participation

- Study participants didn't knowingly participate

## 2 | Process and Progress

1. Isolate the concerns
2. Don't want to post questions onto the internet: asking people who know us to listen past ignorance

TODO: 2 paragraph summary of the paper. Keep the circle small by coming up a clear method of action. Interesting question about whether its phenology or expression.

- Identify the problem + flag points
- Get together & put together next setups
