

Hello! Welcome to my corner of personal notes in Taproot.

1 | About

For a little bit about me, checkout my web presense! I will be here soon to update some thoughts about stuff and probably also mirror my blog.

I am one of the primary maintainers of Taproot, and the author of the current build system. As with most other members here, I go to school at The Nueva School, an independent school in the San Francisco bay area.

Hopefully, there will be more here. Soon; soon...

2 | Testing of Taproot

```
print("howooo")
if 1 = 2:
    print("codeblock test!")
```

this is some more changes.

Yeah.
