1 | CHONPS

- Carbon
- Hydrogen
- Oxygen
- Nitrogen
 - amino acid backbone
 - Where does it come from?
 - \star Nitrogen (N_2) are abundant in the atmosphere.
 - $\star\,$ However, neither plants nor animals can use the nitrogen in the air.
 - * Get nitrogen from eating things
 - · Plant fertilizer
 - · Manure?
 - · Bacteria! KBe20bio101refBactera
- Phosphorus
- Sulfur
 - In amino acids
