- ECON210 Environmental Economics

1.5 | **note**

I feel strongly about: - CS350 - Software Engineering - MATH435 - Graph Theory and Applications - EFD211 - Design Engineering for Social Good

My top choices are: - CS350 - Software Engineering - MATH435 - Graph Theory and Applications - EFD211 - Design Engineering for Social Good - MATH330 - Abstract Algebra - CHEM230 - Experimental Bioorganic Chemistry - CS280 - Computer Vision

I would also be happy with:
