Hi I am like a page to test Taproot

@david, look!
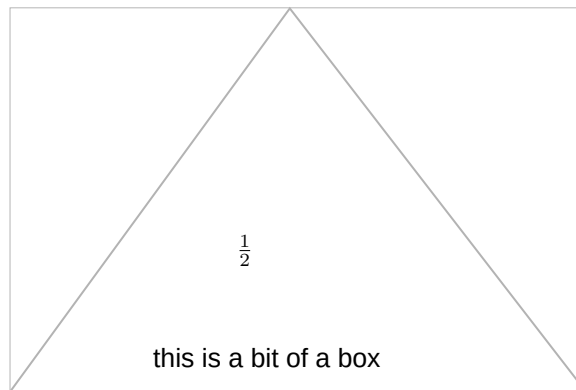

```
#include <iostream>

int main() {
    std::cout << "hahh" << std::endl;
}

print("howooo")
if 1 = 2:
    print("codeblock test!")
```

Humph.

this is some more changes.

$\frac{1}{2}$

this is a bit of a box

I am cool. Yeah! Bom! AAAAH. COOOOL! Because of the pixels.

how to fontify this?
